

Branson Rose

Front-End Developer | React & TypeScript

Ontario, Canada (Remote) | branson@bransonrose.dev

GitHub: <https://github.com/BRoseFE> | **Portfolio:** <https://bransonrose.dev>

Professional Summary

Front-End Developer specializing in React, TypeScript, and modern web development. Additional experience building back-end applications with Django, Python, and REST APIs. Focused on responsive, accessible, maintainable interfaces and reusable components.

Technical Skills

Languages: Python, JavaScript (ES6+), TypeScript, HTML5, CSS3, SQL

Frontend: React, React Router, CSS Modules, Responsive Design, Flexbox, CSS Grid

Backend: Django, Django REST Framework, REST APIs

Databases: PostgreSQL, MySQL, SQLite

Tools: Git, GitHub, VS Code, npm, pip, Pipenv

Concepts: Authentication, CRUD, JSON, Client-Server Architecture, Semantic HTML, Accessibility, ARIA

Featured Projects

Personal Portfolio Website

<https://bransonrose.dev/>

Rebuilt a responsive portfolio as a React and TypeScript application with reusable components. Implemented semantic HTML, keyboard-accessible navigation, and custom CSS using CSS Grid and Flexbox; managed assets and production builds with Vite.

Chelsea Rose – Art Portfolio

<https://chelsearose.art/>

Developed a production-ready React web application showcasing original artwork with a scalable component architecture. Implemented React Router for multi-page navigation including a homepage, portfolio gallery, and dynamic full-resolution artwork pages using slug-based routing, centralized artwork metadata, reusable components, semantic HTML, CSS Modules, optimized WebP image delivery, and Vercel deployment.
